

HOW SAPC SUPPORTS OUR PARTNERS IN REDUCING YOUTH SUBSTANCE USE.

GRAND FORKS PUBLIC SCHOOLS

SAPC provided financial support to Grand Forks Public Schools to implement **Too Good for Drugs**, a universal K-12

prevention education program designed to mitigate the risk factors and enhance protective factors related to alcohol, tobacco, and other drug use. The lessons introduce and develop social and emotional skills for making healthy choices, building positive friendships, developing self-efficacy, communicating effectively, and resisting peer pressure and influence.

SAPC provided financial support to Grand Forks Public Schools to employ 3rd Millennium Classrooms which offers online

prevention and intervention courses for students, teachers, and parents addressing substance use, shoplifting, and interpersonal violence.

PARENTS LEAD

SAPC promotes **Parents Lead**, an evidence-based prevention program that provides parents and caregivers with a wide variety of tools and resources to support them in creating a safe environment for their children that promotes behavioral health.

Parents Lead believes the parent-child relationship is essential to the development and well-being of children. In fact, healthy bonding and attachment between parent and child is one of the biggest factors preventing behavioral health issues like underage drinking, drug use, depression, and anxiety.
